

Chaseley Care

Chaseley is a 55 bed care home located in sunny Eastbourne. We specialise in long-term nursing and respite care for people with complex disabilities, such as Acquired and Traumatic Brain Injury, stroke, spinal cord injury and degenerative neurological conditions such as Multiple Sclerosis, Cerebral Palsy, Motor Neurone and Parkinson's disease.

Chaseley's quality care and rehabilitation aims to promote continuing independence by offering a person-centred approach to encourage everyone to have a fulfilling and enhanced quality of life. At Chaseley we offer long and short-term residential nursing care, respite breaks and community outpatient services for individuals with both low and high care needs. On-site we have our Activate Gym, which is the only gym in the area specifically designed for wheelchair users.

Volunteers

Volunteers are important to help us to make sure that we can support the development, independence and continued well-being of the people who use our services.

Volunteers not only make a difference to the lives of our residents and their loved ones, but also to their own lives.

Volunteer Opportunities

Do you have time to share, a listening ear or skills you could offer to support our residents? If yes, why not consider joining our expanding volunteer team here at Chaseley

Chaseley Care

Our vision at Chaseley is to provide the kindest care for each and every resident by ensuring that each and every person in our home is at the heart of everything we do .

Kind care is the best care that we would expect every human to receive. Kindness is putting the resident at the heart of all that we do.

We have the privilege of giving our residents the best possible day and if we can make them smile, laugh and feel respected, whilst providing them with a safe and secure, personalised environment that meets their needs, then we have given our best that day. We also pride ourselves in taking care of our residents' family members when they visit our home, ensuring they enjoy everything about each day too. The entire Chaseley family help develop the home and enable us to continue to deliver the specialist care provided, ensuring we are the provider of choice.

Chaseley's primary purpose is to provide specialist nursing care that encompasses our core values here at Chaseley:

- Respect
- Empowerment
- Excellence
- Integrity
- Community

Activities

Chaseley's Well-Being Team are dedicated to providing a wide range of activities to suit everyone's interests and abilities; from one to one sessions through to larger group activities, local excursions, and social events here at Chaseley.

Some of the activities we have on offer include visits from animal therapy groups, yoga, bingo, quizzes, cookery, art, woodwork, gardening, themed days and movement to music, all of which require no prior experience. We can also provide one to one activities such as massage, nail painting and developing IT and photography skills.

Volunteering can be very rewarding, and it is a great way to meet new people and improve your social life as well as our residents. All our volunteers are fully trained, and the experience gained may lead to new opportunities and even help to develop your career.

We welcome volunteers who can offer their time to help us in all sorts of ways; whether you're volunteering on our Outpatient Department, supporting our Well-being & Activities Team, completing essential admin in the office, helping at fundraising events, escorting residents on outings or helping to maintain the Chaseley grounds, your contribution will make a huge difference to our residents lives.

Whatever your skills or availability we are certain we have a role for you.

All our volunteers must complete a free enhanced DBS (criminal record check) and must also have been vaccinated against Covid-19.
